

Kia ora to our Whangaparaoa College community

In the front page of this week's newsletter ([click here for this](#)) I note that it's been great to have all staff and learners back on site as we've come from Covid Alert Level 3 to Level 2. Also, we've had a great reduction in absences caused by seasonal illnesses; no doubt this relates to the wise protocols of washing your hands, using a dab sneeze, and staying home while unwell. We will continue to modify our regulations as we hear from the Ministry of Health and Ministry of Education and will always meet or exceed their guidelines. From next week, cleaning materials and hand sanitizer will still be available but not required to be used. There will be a thorough cleaning of frequently touched surfaces once a day. Morning Korero and assemblies will start to come on stream. Sports practices and music / performing arts practices will also be starting up again. Watch the notices for details.

We look forward to a calm and positive five-week run up to the end of term.

Have a good day

Ka kite ano

James
