

Course Outline 2022

Subject: Level ONE Geography 2022 - Half Course

Course Code:	L1GEOG05	Course Length:	Half: two lessons per week
Brief Description:			
<p>This course will support learners to meet literacy and numeracy requirements.</p> <p>Specific themes studied include: The patterns of crime on the Hibiscus Coast (field trip), An evaluation of sustainability at Shakespear Park (field trip), An analysis of global population control methods, Coastal processes in Nazare (big wave surfing), Spain, Deforestation, Environmental design for public safety.</p> <p>Field trips will support learning and skills in some of the above topics.</p> <p>Geography studies how humans interact with the Earth – it provides an understanding of people and places. Geography helps us understand our own lives in a global world and the vital issues we face such as natural disasters, climatic change, resource dependency, human rights and poverty eradication, and sustainability. This course is four-periods per week.</p>
