

Kia ora e te whānau

As you will have seen in the news and media over the last few days, there are many Covid-19 locations of interest, including the recent Soundsplash music festival in Waikato.

We kindly ask that any of our learners and school community who attended this event or any other locations of interest ring Healthline on 0800 358 5453, get advice and follow their advice.

Should you need to get a Covid test, please isolate until you receive the result. If your result is positive, please let us know.
