

Kia Ora Whanau

As you can see from the timing of this email things have changed rapidly regarding life for the next few days in the Auckland region. In accordance with the Prime Minister's press conference we have, along with the community at large been placed back under the restrictions of level 3 for the next three days.

What this means is that similar to the last time we were in level 3, the school is open for the children of essential workers only and these learners will only be supervised for the time at school and following strict hygiene protocols. These learners will need to report directly to C1 as per the last time. If these learners have access to a mask at home, please can they wear it to school.

We will be asking teachers to put work onto Google classroom for learners to access over the next three days. At this stage, we will not be running a timetable for learners or teachers.

We ask that you take care of yourself, your whanau, your community and that we all exhibit kindness at this tough time.

Nga mihi nui

Graeme Williams  
Acting Principal
