

Getting your child the right dental care has never been so easy – *free dental care from year 9 to 13.*

Dear Parent/Caregiver

Both Lumino the Dentists and your school know how important good oral health is to your child's overall health and happiness. That is why our School Smiles team has been invited to Whangaparoa College from 20<sup>th</sup> March – 17<sup>th</sup> May 2019 and will be setting up one of our mobile dental units in the school grounds, and will provide each enrolled student with a dental examination, including dental health and care advice, x-rays, treatment (if required) and a personal Smile Report. We will endeavor to complete all treatment but where treatment cannot be completed, your child will be referred to a Lumino the Dentists practice convenient to you. If your child requires orthodontic treatment, we will advise you to contact your family dentist or orthodontic specialist.

Enrolling your child to see Lumino the Dentists is an ideal opportunity to give them preventative dental care easily and conveniently. Lumino the Dentists School Smiles Programme is fully funded by the Ministry of Health and is an effective model for delivering quality dental care to New Zealand's secondary school students.

If you would like your child to be part of the Lumino the Dentists School Smiles Program, please send back the completed enrolment form to the school reception. If your child is already enrolled, there is no need to re-enrol each year unless there has been a **change of address/school** or change in medical history. Please take note of the parental consent section for all students under the age of 16 years.
