Fire and Industrial Incidents Policy

Last reviewed: May 2021

- 1) Protection, Alarming and Evacuation
 - a. We will maintain fire protection, alarming and evacuation systems/procedures in accordance with Government regulations.
 - b. We will also maintain a procedure for alarming and evacuation in the event of an industrial incident (e.g. chemical spill) in accordance with Government regulations.
- 2) Communication
 - a. We will communicate all fire and industrial incidents to emergency services (e.g. New Zealand Fire) and react to their further instructions.
- 3) Policy Review
 - a. We will review and revise this policy as required and within at least 3 years of its publication date (above).
